Dear Mom,  
Hi! Sorry I haven't written for so long but everything has been rather confused and I've been in rather low spirits. Problems galore!

Probably won't be able to go to Hungary after all. The Home Office is hassling about my T.O. The Heston High Commission is passing the buck onto the UK. All I want to do is go home + be rid of this school, county + petty hassles. So anyway, if I don't go to Hungary what do I do. Right now I'm trying to get a job for the summer. Then I can find somewhere to stay. I have no intention of floating about like a lost duck for two months from friend to friend. Quite honestly, I just want some sanity on my own. If that falls through then God knows!

Next term I am Chairman of Council + Chairman of Moot. This means that I'll be very busy. Unfortunately, these positions rather leave me more open to criticism than before. But I shall cope as always.

Had a lovely letter from Mama the other day - with some really great pictures of Darren, his little sister + the others. She sounds very sad.

It's four days until the first performance of *Hysistrata*. I can't wait. It's the only good thing to look forward to. It is a brilliant play. *Hysistrata* is an ideal part. I feel confident about the character + how I have chosen to portray her. Hopefully it will go well + I won't make a cock-up.

Dorothy + her ~~mom~~ + Carrie, her sister + Michelle - a friend are coming up for the Matinee on Saturday afternoon. So are the New Malden Mob - God will give me patience! The Bedford Bereson's are coming on Friday night. Judy + B-friend are coming up on Saturday night.

Gwen + Frank insist on sending me \$10 a week. I have asked them if they can afford it + if they don't really mind as I doubt I need that much. But

They want to do it & I don't want to hurt them. I'm trying to save it ~~at~~ <sup>for</sup> the summer.

Probably go into London tomorrow & get this T.O. business sorted out properly. Shelio was so reassuring - he said "Never mind not going to Thungary, but you might have to go home." Not such a bad idea.

Sorry this is so angry.  
Love you all the same,

*[Signature]*

P.S. love to Sasha, Robin, herato, Lit & everyone else.
