Dear Mr Wilson,

A mutual friend has asked me to write to you for the information I require listed below.

However I should let you know that your brother is one of my favourite people. I am told they have two children now. Congratulate them for me. I cannot recall their first daughter's name. Old age & senility creeping in.

I require any medical data that is coming from the Cape area. I am also interested in this conference that is in the offing. Would like the papers presented and shall forward the cost of same as soon as you inform of same.

Also a new paper came from UkZ-Ct Grassroots. I paid for my subscription. But have not heard. Have they been hurt in the present situation? I shall be in receipt of Muslim news. Documentation Centre

Is there anything else that you recommend. Any news of Andrew B. Is there anything I can send him. His address. Is it wise?

Sincerely

Phyllis Raidoo
