My dear Heidi, Dorrie & Nirri,

How are you guys? I just thought that I should mention to you that my neighbour here in Maseru is the golf course. It is an excellent field that most of the trees in Lesotho. The only consolation left the Mosotho of their colonial exploits here. On most days the field is beautiful to behold then over the weekends all the parasites of this society come over to hit the hell out of a little ball. All their energies are consumed hitting a piddling ball. Now my friend if you still enjoy playing this game then I thought you should be told that I would want to know when one can look forward to that game. The Hilton provides nothing but the best for nothing but the best people like yourselves at R150.00 per night..the royal suite. But if you would prefer to come to my...umhle home you will be more than welcome. We shall break the bank at the holiday Inn.

Now the bearer is my brother who will tell you his problems. I wonder <sup>if</sup> you will be able to use his skills. I can only give you the best references that anyone could give in all the circumstances of our lives.

I think of Mrs C so often. Only last week I read the Lake haven story. Give her my love & she is welcome at anytime to stay with us, while in Maseru. Take care. What is Nirri doing. My son send her his best. What is the asking price? 20 head of cattle? I am offered 200 for my daughter & she is unwilling..Damn her.

Love & miss you all
