Best time is lunch time:

My Dear Ser, Mzonla Jo, Jase & Lisa, I have been ringing

you for ever so long - last night I sat on the phone from 5.30pm - 8pm - & you were engaged on a trunk call for all that time, & on 2 occasions when the operator called, says Swaziland on the line - you were too busy. I do hope there's nothing wrong.

How's the prospect going. No news? What news of AS, Vas, the legs & low. I saw someone from Gamba who promised to enquire about Rintu - what is her new P.O. box number

Last night I dreamt of my Ste - he keeps coming to me & in some situation leaves me & I climb untenable steps to find him. My suppressed wishes no doubt - somehow I think that Bahdhan is lonely & like his Dad he would say so.

Will you tell Mabel that at Waterford she is on trial for the last 3 months & if she is found wanting - she is out - Also every 6 months thereafter tests are had & if apples are sorted out.

I've been having a look around at the other schools - you'll be happy to know that St Marks girls are on the pill or loop - & spend Friday & Sat at Happy Valley a disco "where bitches abound" says Arthur & he is not particular whom he goes to bed with

Its ok for boys - the hotels ramble on
the grounds & no effective supervision can
be kept - No even if it hurts me
I think Aunty will stay at Waterford - I cannot
afford to allow her consequences she will
not be able to cope with.

Mrs D's daughter 13 in 8rd V - Mrs D's daughter tells me
she is in form 11, is taken by the Ma to
Happy Valley weekends, all love the fun &
beige there. This weekend Mrs D met her
& she stayed one day & Sat night returning
at 6am with a white escort - Sunday morning
at 1.15am next morning she was working
exams. She is at 10 marks - I am terrified
All Aunty is concerned with is her good
looks & figure - You get to see that she has
more - at least not be dependant on
marriage for her looks - Even her good looks will
fade out in a few years. Help me please.
Let her to study while there - Scrabble
etc.

"Don't leave me this way" - You remember
how we danced to this piece on the 8/7/77
You'd be surprised how that piece sends
some of us - Tears - And we were in tears
for so many behind bars that are mutually
known to us. In this regard I am happy.
But in the partnership I am anxious - we
don't buy soap here - We charge on post.
If we can get anything for nothing cheers. We give
naught except to be Prince here

The office is looking much better - & we expect the electrician who should make the offices brighter - To date I've posted the lions share - he's bringing Stationery from his office.

I've got a place to stay till 15th Jan with some IVS volunteers (British) Only to pay for food. Simple folks in a Mrs Coleman - they leave for London in Jan. then I'll really be in trouble. I am so afraid here Dec - can you believe that the heat is removed from the main house - where the light is on all night in the ragged stoves - Indiana \$20.00 - other \$10.00 B. Booth next door strom on their gutters & quizzle the paper-bones when rabbits are killed - all drinks - & they have to if they live like this. **UKZN Gandhi Lutuli Documentation Centre** ~~They don't eat the kera which abounds is mixed with their porridge - A 55 yr old maid "Krisulla" who answers the phone bright & loud (deaf) clean the house from 5 am - 1 8 pm. She drinks too. Ah yes two are the joys.~~

Think well on that project you named - it has to be considered very carefully.

Did Morgan arrive well? He seemed confused about the roads.

Keep well. all my love - Miss you
Phyl.
