Mbabane  
Swazi land.

My dearest Inks.

The office is beautiful though placed in the basement we've managed to make it look very lovely. But my application for admission is still held up for lack of a residence permit. So I wait hopefully.

In the meantime I kicked out of this but I will be living with Jeff (remember the sad days we had with him - mits in the Padad) for a few Coleman till mid January - by which time I hope to have both residence permit & a flat - keep your fingers crossed.

Ukon baba - I've just learned that you will be on trial for the 1st 3 months - then cut you go if you get less than 50% in all subjects. So read & read. New papers daily - Do some Maths with Rajan - please take yourself to work to achieve anything - I've ask Bar to get you scrabble - learn Chess - that helps you think - Your pretty face + cream powder crap will be good for another 20 yrs - but a pretty brain you'll take to your grave
