I brought this - Make a copy for Sha
& Sama & send
made to me. 15/6/83

Dear Phil,

Thank you for all the
correspondence. It was great to get all
the news of Suks. She appears to know
what she is going. Give her & the
boys our fondest love. Tell them we admire
their work and wish them well.

I thought you would like
the photographs of our bro. That was a
great Christmas.

Any news from Sam this? Has
she completed her doctorate? - Is
she still in Seyal? Has kids - what
are they doing? When next you
write to her give her our best wishes.

News from Cape Town - most of it
good. I love the Cape - Table Mountain
has a fascination all of its own. My
brother loves it. I must join a
walk on Sunday on the Mountain - trying
to reduce this fat of mine. Michelle - is
a leg of her own - The
is doing just
well at school - Reads a lot - I feel that
she is capable of better - Simon tries very
and she has shown lots of improvement.

Mich here -

25/6 - 30/6/83

Jean is well - doing OK at work - She has lost her waist line. Her tits have filled up - This I like.

I am fine - health is OK - doing some exercises & a spot of running twice a week. No smoking but a spot or two to keep the viruses at bay.

Things are going well at School. The Waiga allows me to do a lot - does not suppress my "impressive" nature in any way. At the moment I am taking a prospectus for the school - next term I will tackle the school Magazine.

What news of the folks in Durbs - Heard that Krish was in Cape Town over the week-end - We did not hear or see him - Got the news from some pupils of the school - felt bad about that, but I suppose that's how it goes. Can't win them all. Ben is a good chance of being Reput y in the Cape. Saw Doctor & Atha (Chetty) in P.E. last month. They gave some news of the family.

Phil - See you one day.
Love & keep well. GJ.
