

Hi Phyllis —

July 25, 1982

Sitting in the Seattle, Washington airport waiting for a defeathered pigeon to tuck us under (over) its wing & whisk us to Japan —

We've been thinking about you so much & hoping that if things don't work out for you to lose the that you'll take that scholarship to Sheffield.

When we talked you didn't say anything about what was done medically. What's the story?

Also let us know if & when you want the hereto Gov't to hear from a bunch of folks — until then we'll remain quiet (uncomfortably so)

Hi Phyllis — How hard it was to confine our conversation to that brief telephone call ... When most of all

we wished to sit down with you and talk and drink coffee or milk
 or tea... We've thinking of you always so be sure to let us know how
 best we can help & support you, (+ at the same time let the
 Herod the government know they have lost all credibility) How is Suk
 taking all this. I know she is strong despite her young age.

we had a good visit with Royce in Kathy as analytical as ever &
 Wayne always seeming on the verge of grumpiness --- yet soft underneath.
 His bark is definitely worse than his bite (& now Monroe - ever panicky -
 runs off to check that the plane hasn't left -- we've only got a 5 hr. lay over.)
 Josh is tall & handsome (he'll be knocking the girls over in a yr. or two.) &
 beautiful Carrie is into gymnastics & she's upside down more than right side up.
 The Baergs come to visit with 2yr. old Allison who is definitely the apple of Bruno's
 eye --- Their # 2 is on the way -- Bruno did offer to give Monroe instructions as you
 suggested, but I assured everyone he didn't need instructions. 'Take care of yourself'
 we love you! Fern & Monroe
