My dear Jenni & Martin

Adrian came in a little while back having delivered Johns earthly possessions & there is more to come - I am hoping to get it across as & when people go across.

I like Adrian - he offered so generously to give of his time - I was afraid that he would be sitting at both borders having the whole bakkie scrutinised - but it wasnt like that - & he drove all that way so kind -

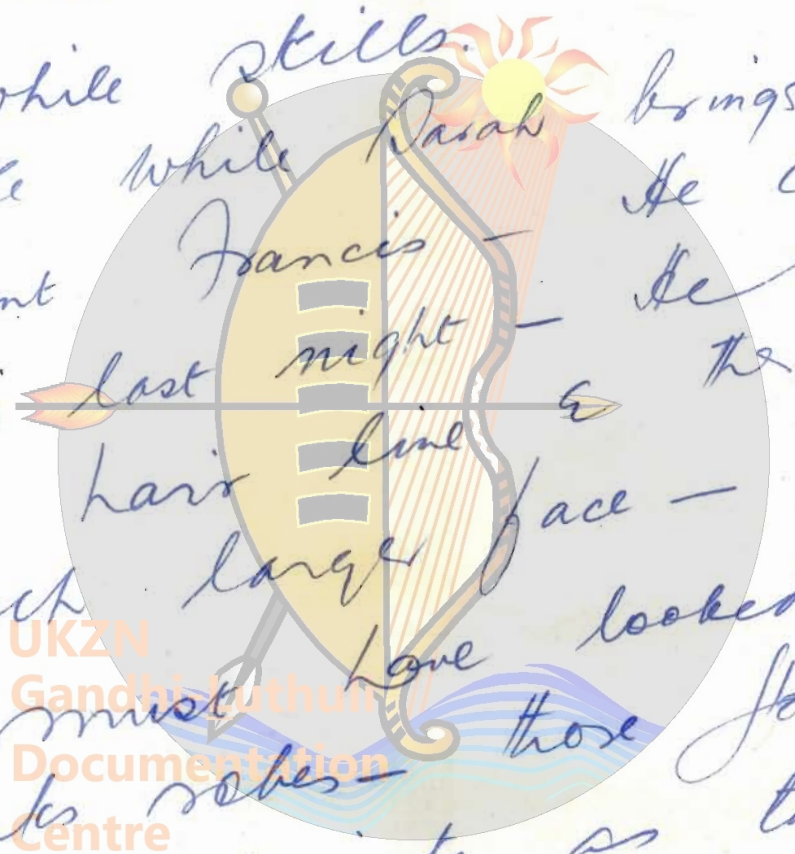

& back - that was so kind - Did he tell you that as I was washing my pants & bra the water was closed off - I did not close the tap - Returned & hrs later to find water cascading down the stairs - beautiful to have a water fall in your home Only Johns boxes were coming apart at their seams.

Of course I had to repack & with  
the scarcity of boxes - the best was to get  
everything into a takkie & be shot of it.  
I'm sending you a little something  
for little Jo - (Could be Joe or Joelen)  
No I did not crochet - I'm an  
idiot when it comes to such

worth while skills.  
In a little while Nasah brings her  
replacement Francis - He came in  
to say he last night - He has a  
receding hair line & therefore has  
a much larger face - a short  
fellow must have looked awful  
in monks robes - those flowing robes  
are OK for priests as tall as  
John - but these puny fellows should  
seek other skills - as indeed he has.  
There is a plane that leaves here  
on Fridays & returns from Botswana  
on the same day, & I should be used  
to keep in touch.

No, remember the Ensoo/Peterson clique - I  
don't know why they were suspended  
& Zola watching TV with one eye  
tried to explain what had happened.

Could you fill me in  
Emmet is here & is extremely busy  
photocopying & sending stuff to SA.  
Sactu is asleep in the country &  
this gives these work a field day -

I don't know that he reaches only  
white intellectuals - he is certainly  
working very hard - facts & figures  
he has - real Trotsky - But hard

working - Sarah (Ssst) secret - please  
has fallen in love with him - &  
I am very fond of her & try not  
to talk of her

people in each of the front line areas -  
most people are pissed off with him meet  
locally - Certainly an ANC guys who meet  
him, think his a phony - taking care of John -  
I don't you for taking care of both

Thank you so highly  
he speaks so highly  
of you.
