My dear Raj,

It's Reggie's birthday today - I've been told that I cannot be employed permanently if at all - but if so - then on a contract (2yrs) basis - that is an instant acquit device - It's 10pm - what are you doing - Don't ever leave me - whatever you do - I would not wish this hell on anyone least of all on the people I love. Somehow Deva wants to make my hell his age. Can it be. What he cannot care in his family he wants to care in mine. send me an address book. There was 'Dolan' in Dwajland - I'm without my arrow. without it. Did you get my note from Gambia. Can you do something about 1/4 of the child in Gambia - You must send me writings more regularly - its very important - I'm so unstrong now. My words die in det. I have a letter from you for you, some legs too & for the love me to address - she asked for some clothes to be sent for my son to be affix to her. What arrangements Is Kula working - What about Viadis (worth) travel - Lost his addresses too. Also need Joosens & Mame. Manda is OK but from boyant self - & like flames - they go off - she's overspent - Now clothes is on. Hows that for protective custody. The problem of the hell I spoke of also when you refuse to go to the you're a racialist - a brand new definition.
