PRIVATE AND PERSONAL.

67/GT. I gladly avail myself of the opportunity afforded by return to India of our delegation to recent round table Conference at Cape Town to thank Your Excellency personally and your Ministers for great courtesy and generous hospitality shown to our representatives during their stay in the Union. They have come back from South Africa with happy impressions of cordiality with which they were everywhere received by officials as well as non-officials and with gratitude for excellent arrangements which Your Excellency's Government made for their comfort. Government and people of India highly appreciate the attention shown to their delegation as token of growing friendship between our two countries which I trust labours of the Conference will greatly strengthen.
