

P.O. Box MS 402,

MASERU.-100.

8th June, 1981.

Mogam,

I thought I should write immediately to assure you of the receipt of the 1981 Diary on the 6th June, 1981 - half the year has gone. Next time its value would be enhanced if it arrived early in the year. Thank you none - the - less. I shall place it on my desk and make such use as is possible - The first half for letters - Ah' see how use can be made with a little thought.

The questionnaire was hilarious, thank you for same - the addendum too even more priceless. Will reply thereto in due course. Some vibes of loneliness were had - A dent we all - Those who tread this path have had to fight for the right to stay alive. Don't despair.

The threatened promise to send me a shoe (size 6½) has not materialized. In due course hopefully - The debate by MJ and Mamoo described by one presidents man as emotional VS articulate, should prove interesting - I should like to have clippings etc.

The presidents man, to be state - pensioned soon, attacks Diakonia and Black Sash and my erstwhile partner - Poor fellow must be a very lonely South Indian. The ethnic editions of the liberal press have less ethnicity than his - paper ne'.

We are well here, for how long is another matter - you keep well too my very dear friend. Kept this clipping of this lovely lass who hails from the place where your business interests lie. This prostitution of a good name MOODLEY (yours too - I mean is a good name) which have similar roots to yours is unpardonable in these enlightened times. In christianity had to be spelled out in names that suited the high priests and one dressed to please them as well. But now with cultral ties being enhanced, why this is necessary is another matter - You probably will have the pleasure of both her person at work and her name.

Keep well - that's an order.

Love,

.....
Phyllis Naidoo.

Mogam - note the print - Looks like Charlie Moodleys family - note Sallys name does not form part of hers - Modern times my lad - OK for the good old days - what?
