

Dear Mrs Naidoo,

27/10

How are you all? It is such a long time since I heard from you. She saw that the game I got through the white life fund was not as exciting as it had looked in the catalogue - I got it for my nephews too - I write say - I was sorry I was but have heard nothing since. I visited the brother who is in charge of a hospital in the Ivory Coast this summer. Unfortunally to chief - London got the dates mixed, so we were unable to have more than the odd day together. However I love the country and the hospital. I hope to work out there permanently after 1974, so it was worse for him than for me.

How is your husband?

And your children and

yourself? A friend of Ghana
visits us for 3 wks in
the summer too.

kindest regards.

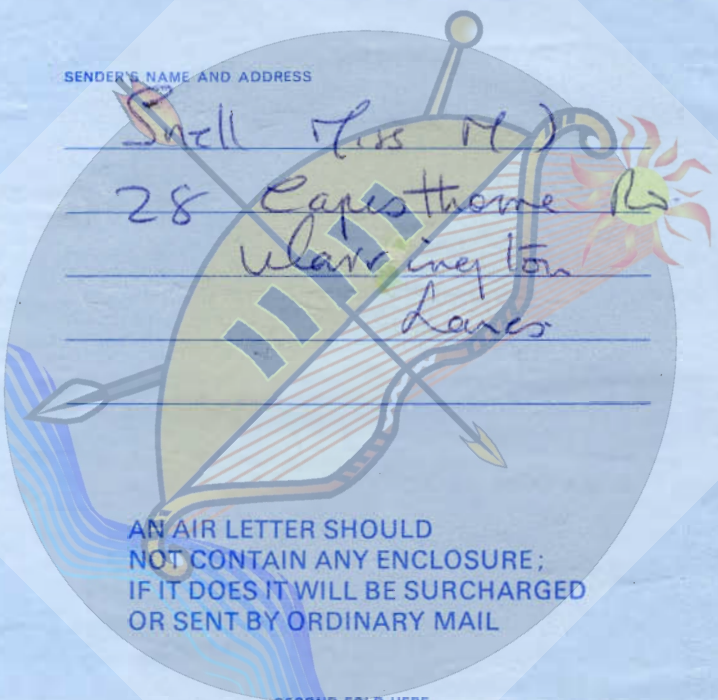

Yr. Snell.
