Dear Enrol,

Thank you for remembering us at this time. It was extremely thoughtful of you and I am most appreciative of the gesture. MD is in good health & excellent spirits - If I were half the human being that he is, I'd be extremely lucky.

We greet you heartily too at this period & hope that the true message of Xmas - Peace & goodwill amongst all men pervades even beyond Xmas, and more.

Cheers.

remember my family.

We wish you too the
very best in the New
Year

Sincerely

My dear Myra & Frank,

I am sure your reply to my short note is in the post. I am expecting it to arrive at anytime.

I phoned Deemer & have up his results & they say they do not get them but that someone has had them by throw. Has he?

Please let me know.

If you wish me to do anything here in a hurry - please phone me at this No 346857 - make it personal.

I keep thinking back on a glorious weekend in CT. and 2 wonderful people. Have you forgiven me for not taking all the gifts you made me. Please do.

My Dad continues to be in a coma while the doctors think he makes progress. We unfortunately cannot appreciate this for he is so removed from us.

Another week of holiday & the kids will be back at school - I dread this - I am still unemployed & they return on the dresses just double in. Still - we will overcome.

Love her Frank, please get new teeth in your mouth & get used to it. I'll show you

the town when you're down here &
the girls want be pleased.

Please let me know about
Jerome & if there is anything
I can do to help.

Shall I expect both of you
in March?

Madhen asks if he may come
too on holiday. He thinks
he can come upon days.

How's the fig tree? Have
the tops been to see you?

I have no heard from W.D.
a great amount of delay in
one.

We are having excellent days
here. In some parts we have
to walk in the middle in the parts
& all the street are crowded
with cold showers. But it is
glorious to the top.

Except for collecting the fish etc
I have not seen Jay or Nance. They
continue to act in a self-
righteous manner. And I've
decided they can't do it.

Do write.

With love

Your as ever

Phyllis
