

4/9/69.

Maggie,

I have just returned from the hospital after extensive tests & rays etc. A stone in kidney - which my Quack proposes to remove next Friday at St Aidans Hospital. Both the Specialist & Anaesthetist (Sp) are doing it *pro amico* - I shall be required to find £150.00 hospital fees. Arranging to pay this per month.

We have not had sight of the flowers that were due to sent. Do let me know anything in this regard.

I cannot think -  
Thank you for all - & check on my children.

My dear Maggie,

Thank you for your cheque for £20.00 towards me. I am deeply grateful.

1. The bill for MD sent arrived, now the other man's.

2. I asked for help when I was hospitalised and 2 aunts of £42.4 arrived in Oct & Nov.

My Sam became desperate.

I applied to canvases for a laundry & they refused when the caps had to be informed. So too a market research job. I had seen a part time cooking job at a club - hours from 3pm - 2pm - Saturday 20th. My Quack says that it would be not good health-wise. So, I make a sell dresses. Cannot buy for the entry is too much - But I'm sure something will turn up.

27/11/69. Day is less - Thank you again

I've not had a job yet - Keep

Your eyes open for me

Dear Maggie

My sincere thanks to you & yours for Xmas gifts to the children & for all you do for us, every week without fail.

Thanks to Luce for deterring the weekly haunt to the To who waits patiently in the car. He started driving in his county make it impossible for me to greet Harold - but I love him none the less.

Came over for a gas when the Bull set in. Sabbathan has just returned from hospital - Parvulectomy, & Sha had an attack in the theatre & could not be done - MD is well & Greet you all

Love  
Phyllis
