

14th June, 66

My dear Phil,
First-things first. How are you, the ~~and~~ baby and the boys. Not forgetting dear Dad. Bless him, who does the little girl look like. Naidoo's or David's, and what have the boys got to say about her. You know, I can just imagine them fussing about her, and how does it feel nursing a little girl. Terrific I'm sure.
Books when you do see dad, convey my warmest love. I can guess how very tough things must be right now, but have courage dear, though I do hope and pray, you think of making a change. Life can be so very miserable under all those conditions, and you do have kids to consider. Please think about it, leaving on the 1st July. So this will be my last S.A. stamped letter to you. I wish I could see the family just once more. But
All my love,
Dorcas

Congratulations from Rocks.

Kiss them all for me, and ask Sha-sha to kiss you, for me.

Many thanks for the lovely book &
your note of encouragement. Your courage has
been instilled in me & I hope that I
will be able to face the future as bravely
as you.

I'll see you one of these days
