

Nov. 16. 73

66 Bridge Street
Londonderry
Northern Ireland.

Dear Phyllis,

A Happy Christmas & really Good Luck in 1974 to you & your family.

Thank you for the mats & best wishes, which arrived just before I left to join Will here. I've been spending about 2 months either end alternately all the year.

Tragedies keep occurring or difficulties arising but quite a few people are still working for a more peaceful situation.

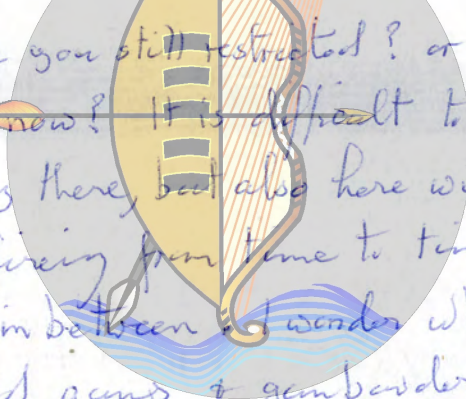

I hope the dress I made for Sakthi is the right size it is only guesswork on my part. Please let me know if it is too small.

I expect you are enjoying lovely sunny weather. It is very cold & showery here.

I hope your new address means that one

of your difficulties has been solved., Christmas presents to the children were already posted so I hope that you will get them safely.

Our grandson Michael has started school this term & loves it. Rebecca is just starting to talk. They came to see me for a weekend just before I came here.

Are you still restricted? or has that finished by now? It is difficult to bring up your family there, but also here with gunmen & soldiers firing from time to time & children getting hit in between. I wonder why anyone ever invented guns & gunpowder sometimes they never really solve any problems.

with love & all best wishes

from Will & myself

Nelie
