KENTON, HARROW,  
MIDDLESEX, HA 3ANU

Dear Phyllis,

How are you and your family?

I do hope that you are now all together and in reasonable circumstances. Are you keeping in good health - any more trouble with the kidney complaint?

I am glad to say that we are well. Jennifer is 2 years old now and very happy and independent. We moved to the London area a few months ago, as here Kofi has more opportunity to continue his studies and complete his qualifications in surgery. I have a temporary job as a librarian in a government department.

We hear news of the struggles of the oppressed in South Africa, from time to time. Earlier in the year the newspapers gave much space to a report on the low wages which British firms in S.A. pay their African workers. This kind of exposure of injustice is very necessary, I believe. Britain is not without its share of guilt.

We hope that you will have a happy Christmas and good fortune in 1974.

Love from Grace & Kofi.
