

Dear Phyllis,
Subkhi, Gha + Bahdhan,

Harlow, Essex.
C.M. 19. 4. E. 1/2 W. 1/2
3. 10. 73.

How are you all? We hope you are all as well as we are at present.

How are all your problems, now, dear. We hope you do see the children about once a week. Have you any news of your custody of the children?

We went to see Susan & look after our grand daughter whilst Suzy's husband went out for a twenty first birthday drink whilst we ate some of the cake given cooked for Susan. We babysat for the youngsters for the evening.

I have been able to dig up all of my potato crop on the allotment, as the weather has been fine up till now. The runner beans have finished producing beans for this season. I am just letting the old beans form, so that I can have some of my own seed for next year. The cabbage is growing well, the beetroot are ready for storing. We still have some spring onions which we will use in salads for another week or two. Soon we shall be digging the ground over again for next year, & letting the frost sweeten it. Did you receive your flea towel, we sent

you from Southport whilst we were
on holiday.

Could you give us any suggestions
for Christmas presents for you & the
children?

May we send a Christmas card
to your solicitor friend & his wife & baby.

Have you heard from your Swedish
friend. We are sorry, but she has not written
to us. Hope to be able to write to you again
next week. Love to you all from Gwen &
Frank.
