Dear Phyllis,

Thanks for newspaper cutting. Am glad of your success & hope you will soon be settled in the job. These are difficult times for you, but I imagine that you are equal to most of the difficulties. No doubt you know best about meeting with the children: I am wondering whether it might not be as well, at least for once as an experiment, to take MD at his word & go to see them where they live. But that you can decide better than I or anyone else can. I hope things will be better soon for you & for them. Keep in touch & let me know if there is anything I can do at

this end, or in London. We
are having a hot spell of weather
just now & it is pleasant at
our house near the sea. I hope
you still hear from Mrs
Simmons, & from Olofs, including
your Swedish friends. Best wishes
to Mrs Doerat & other friends of
yours. We all hope conditions in
South Africa will improve for
everybody. Best wishes to you
all. Yrs
