THE YEAR of THE FC.

COMRADE PHYLIS,

Thanks very much for the letter which you sent us with Com. Mosala.

By the way Com. Mamorena wrote me immediately she arrived at her school place.

She was at the hospital for about a week and then she was later discharged, it seems it was not a serious thing.

Well, I think I will be going to ~~the~~ where Gaddafi is studying in about months time and I will pass ~~to~~ your message to him.

Otherwise we are trying our best this side I mean politically and with school-work. With Comrade Mosala is still ok, but he is so used to German that we almost take German all the time when I'm with him.

Our Struggle is ~~to gain~~ gaining momentum every day, the forces of darkness are daily losing. Anyway, that is the process of history, you know? History has got the bad tendency of repeating itself?

Thanks, Comrade James have been saved from the gallows, that is another victory for us.

You know that it is winter this side it is so cold, the snow has started to fall a little bit.

I hope that the other comrades are still OK the struggle must and will continue.  
Forward forever Backward never!!

In the words of Comrade Mandela "Between an Anvil of the United mass action and the hammer of the Armed Struggle we shall crush Apartheid and the white minority regime".

Surely Victory is Certain!!

Forward to a Peoples Government!!

Luta Continua!! Mayibane!!

Hope to hear soon from you.

Yours in the Struggle,  
STHABO.
