

which means it has member groups nationwide whose purpose is to promote racial integration in schools, housing, neighborhoods. There is a chapter group in my neighborhood and they are the ones we showed our slides to first. We've belonged for years. I feel so lucky. I'll send you the information we send prospective members.

A couple weeks ago we got a surprise phone call from Tesotho. Titallo, our neighbor girl, called to tell us her father got a phone. Her father was sleeping and her mother was out. We were delighted to hear from her but I imagine her parents will be upset when they get a phone bill. Never teach young children to make international calls!

Bob is cooking some dinners for the freezer to make it easier for me next week. I have two evening meetings as well as a new job.

I hope the school at Machabeng gets organized. I have met Mrs. Makose but I didn't know she would feel that way. It sounds like Sukkhi has a lot of studying to do to pass O levels in so many subjects.

I feel so far from Tesotho. I really don't know what is happening politically. Actually it was often hard to know while we were there but here we get no news at all.

Take care of yourselves. We look forward to each letter.

Love,
Bob + Susan

Bob doesn't write but he reads your letters and thinks of you too. Today is a holiday to celebrate G. Washington and A. Lincoln's birthdays.
