My Dearest Phi

I must thank you for your letter & the 20K. which Rosar gave me on Sunday but you do worry about me it is so nice of you, as I feel there is some one who cares for me. I only wish I could see you & give you a big hug for all you do for me. yes I went & saw Alth. she is fine I go as much as I can I see them all there as you know her mate in the same room tells me who all came & see her. but she talks & doesn't not forget anything I tell her you always ask about her & she feel so happy. you know I do feel very sorry for her as she wants to go home but what can one do I only can do my best to go & see her & make her happy & give her what she wants I'm sorry to hear it is still cold but here it not so bad. thank God mother is feeling much better I do hope you & Seltra are well as for me
