

10/2/81

My dear Phyllis -

How are you and Sue? I wrote to you in January with Peter & sent to you a card. He returned the weekend after the attack on our brave comrades. I know my dear one how you feel as with many of them you worked. I knew and worked with some of them - the Friday when we received the tel. call - it gave me a shock - took me some time to recover and sack. I went to the office to give the message.

Have not seen him - he came & went back to Maputo. I received a letter from you and documents passed on one to OR and the others to MAC - the letter is not with me so, I cannot reply - we had to clear out in a hurry - an our duty usually to 1-2 am when other have over.

Am anxious about you, Sue, mother, father and children and baby, Bob & family and all others. Please darling drop me a line and tell me how you are, how things are with you and your beloved ones. Please convey my regards to the comrades.

The racists think that they will intimidate us and our friends - they are mistaken. Their attack upon us is part of their election campaign to rally the white racists - the verkrampers to Botswana - just like USA does with Cuba. The future belongs to us! Victory is certain!

Keep well my dears - just write please!!  
regards to Rebecca when you write to John.

Sack wrote to you.  
ie he gave you his comments

yours as ever

Rey
