MOROGORO - TANZANIA

2nd August, 1981.

Dearest Aunt Phyll,

At last I got to my first destination safely. Unfortunately it looks like I am going to be around here for the next 15 months - now I know how the people on the island miss a lot of information. I was in the list for placement and they needed some confirmation from my region's Rep. which never came. The photostats we sent are nowhere to be found though. There is confirmation from some Scholarship Committee members that they reached the office. All the same there'll be a special meeting to look into my case and if the Cuban Embassy gives the OK I may leave - But I do not hope for any success. Erwan Paped's name is on the same list. I am helping in the School's Clinic with Tim Naidoo.

If I do not leave this year I hope to come down to see you before I leave for school. How is my young lady adapting herself? Oh! Aunt Phyll, I forgot to tell you that Monaggebi is sensitive to Penicillin. I hope Soko remembers this. I also believe that something is to be arranged for Monaggebi & also Mayibuye's education but I want to try all possible helpers. The going is rather tough BUT one thing, sure I enjoy a clean and healthy social atmosphere. Lots of books to read and moreover I am doing Maths, Chemistry & Physics as a private student, so much so that I have a full day. I am jogging in the early morn so much so that I have been able to reduce my body mass. I miss your Sister Cynthia by days.

Be strong and healthy.

Love to all of you
Siphokazi.
