

and don't

(small?)

We didn't want to live only in a little family (parents and child), therefore we looked for another flat, a bigger one than our old one.

We are lucky. Now we are living together with another couple. They have also got a child on April 10th. Now the children can also grow together. I think that's fine. Both, Gabi and Michael, are also teachers.

Now I am in protection of motherhood. I needn't go to school the next weeks but nevertheless I have a lot of things to do. My pupils are finishing school now and they are looking for jobs, for places to do their apprenticeship, and they need help. After the birth of our child, I will stay at home for six months, and I will work again after the next Christmas holidays.

One week ago, I have sent you another cheque. I hope you will get it.

I hope you are well. I was very glad to get a photo of you. I will send you one of us the next time.

Much Love  
Dise
