Dear Sha

It's being a long time since I've written to you. Now that I have the opportunity, I'm writing it. I have to admit that I am not too good at writing letters, and if I do write it's a miracle.

Well to start off, how is the weather in Cuba? I am writing this letter from Matanzas so you can imagine how cold it is here. But we have a fire going every evening.

It is a pity you can't come here to visit, but maybe when I'm older I will come to visit you in Cuba.

My mummy, Jazmin, Lisa, Angel (my cousin) and I are visiting for two weeks and we have already met a few few people and they have been just super.

Remember before you left in 1977 you sent my mummy or daddy the volumes of Elvis's records. Well before we came to Matanzas I played them everyday during the holidays.

Can you believe I'm in Std: 6 A. I am studying Music-recorder, and attending Mt. View High Secondary. I stay very near to school and do you know what that means, well it means going late to school.

To end off I would like to say: I do hope you enjoy this letter.

love

JOLENE
