Hi Mike,

That Lady in your OT office is a gem. She phoned at your instruction (from Australia) to give me an update your state of health post the surgery. Wanting to save you an exorbitant telephone bill I told her that I was kept abreast by Ruth Lundie who in turn heard from Mike Worse (in ternet/ Email) whatever that means. Subsequently when the operation was postponed for a week and when the op was a success, she informed me again.

I required to know for Liz/Peter Jackson in the UK in what hospital you were - assuming of course that there were many hospitals in Sydney than the one you were at. Ruth said I should phone Peter Kerchoff (sp?) I did - how delightful he sounded. He told me you were at Royal Prince Alfred ( what are the Aussies doing with so much royalty ?) He also informed me subsequently that you were so well you were about to be discharged. That was good news

Its wonderful news Mike. That you will holiday in Australia for a month - vital to be close to you quacks, is also good.

I think the Ladies at Masite have some connection with someone with email facilities. The church is rich thats an old story. Poor Bishop John Osmer's limited to the diligent post office has given up on us. Perhaps someone should tell him about the joys of email. I am about to invest in a fax and the knowledge to operate it. I am afraid of all the high Tech stuff.

We knew before you had emerged from the anaesthetic that the OP was a success. WOW !

We send you our love. I have been sending you red roses daily as I pass my flower shop - I know you received all this telepathically.

Do take care and OBEY THE QUACKS INJUNCTIONS.

LOve

Phyllis Naidoo
