

Yes! I have accepted your constructive criticism, and produced a more "politically correct" cartoon of you!

← Lady Dee hair do Exclusive!

← of course, a many-krat rubi

← many-jewelled Winnie-like customized eyeglasses

← seductive Joan Crawford eyes (do you want them blue?)

← ah! The joys! ruby Marilyn Monroe luscious lips to go with the other ruby!

← customized Woolworth jewelry

← almost perfect Greek "Orthodox" nose

← just a tiny wee bit of lipo-suction here

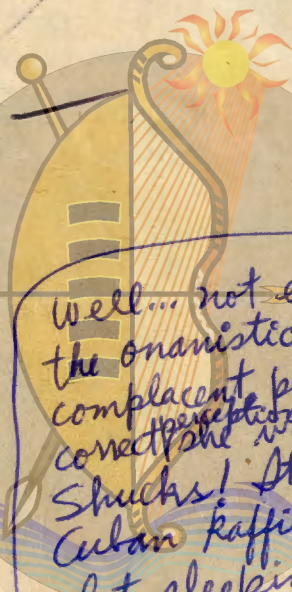

← of course, a sari of finest silk

← another wee bit of lipo-suction, to break with the 40-40-40 record.

Satisfied now? If you're not, just return this cartoon with more observations. If you are, you can just cut it out and paste it on the more realistic, un-glamorous one you took from Cuba.

Awful

Geeez! you mean to tell me this is Phyllis???

Well... not exactly. It's rather the onanistic, narcissistic, self-complacent, politically and aesthetically correct ^{perceptions} she wants to have of herself. Shucks! It's too complex for a Cuban Kaffir to grasp... Jus let sleeping dogs lie!!
