16/1/99
O.K., Phyllis, this is the last update
before I pedal my way to Clara's
to give her this letter. I had a
chest X-ray & an electrocardio-
gram, and guess what? Everything
is normal, except that my heart
is on the wrong (?) side. I al-
ways suspected something like
that. Well, as you can see,

I had to manufacture my own
envelope: maybe Clara will be
kind enough to get an industrial
one in South Africa.

Again, lots of luck, health &
happiness in 1999.

Love,
David
