

30/10/98

Derek,

It is 11.45 pm, Friday 30th October, 1998. Gonda very kindly offered to drive me home from JHBurg. We arrived at 3pm to no food, a filthy house with Gonda's parents, Ayanda and Patricia. What a mess.

We bought food from my nephew around the corner for lunch. Then shopped to lay in some food for the weekend. Then as my friend Bam said, the friendly light was home, and the house was alive. We had a house full. Ebi bought some pizzas. We were bushed and could not cook.

BUSINESS:

Two friends of mine

1. DAVID GONSALEZ LOPEZ
2. WALTER LORD GARNES

are working on rock paintings. Much work has been done in Zimbabwe. New paintings have been discovered etc. I have seen portions of the documentary and is certainly not a subject I have thought about. It was thought provoking.

David the 3 pronged name and the object of the matter you found it necessary to seat your bottom and which caused you to laugh on Thursday night. Personally I did not think it was a laughing matter - it is bloody painful my friend.

However be that as it may, David wants to locate the SAN, and to film them in their new location, their habitation, dress, ceremony etc etc as full a document of the painters as possible.

Whatever help you can muster will be much appreciated and the other for now a laughing matter will be much enhanced.

Love you,

Phyllie.
