Thursday 11th March, 1999.

Hi Luisa,

Some of these, no all of them came from my friends liz and Peter last week. I made copies and laminated them for you. I have some pictures of the school at which Ernesto was at but I will send that later.

I want to write on my trip to Cuba - but I am so busy. Ive just finished a diary for the Millenium and it will hopefully be published by August. I am doing another for the elderly so that it will be published soon. Then of course I'm doing Chris but I know he will understand why I am neglecting his work.

Do you get any of the stuff I sent to David. He was ill for some time. In fact he has not returned to work as yet. The certificate of Sha has the glass broken. I do hope that it has not destroyed the certificate.

How is Ernesto ? Alex ? Your Mother, Sister and her boy ? Give Professor Mira my greetings.

I hope you enjoy these pictures of my memorable trip to Cuba. Share it with Raul please. I remember him with so much affection. He gave me such quality time. When I have my evening meal I think of him fondly - when I see an advert for a toothbrush I think of his care of me when I lost my tooth. My love to Maggie, our interpreter Give them all my greetings. I have some great pictures of the dentist I will send once I have written of my visit.

I must go now.

Love you

Mum
