Subject: Chapter Two - How I lost 1 is a mystery

Sunday 2.20pm 11th July, 1999.

Hello, you sleeping sod. Just when I said I was sending this wonderful music across the Atlantic to you, I lost the whole letter to DRAFT. Damn

So if you dont get the first portion know that this half the letter and is being done in lieu of my afternoon nap.

I was telling you that I will write evry Saturday as I do not want to be disturbed from my work. I want it finished before you arrive. Does that make sense ? It does not tell on our relationship - whatever that might be. It just says that I want this completed before you come, so that I can give you some time. I wont add quality time.

Whatever you can do it to get here. Do it. I am not budging from the 8/8 - Neither should you. Poor Wait working at night ? You should make a note of all the chores connected with your coming and tick them off as these are done.

We are having heavenly weather. No rain only a nasty wind yesterday, but today is beautiful. Keep your rain. Have you any material on your water supply in Havana - why no big dams ? etc

Liz left some medicines for Cuba. I showed it to my quack friend and he said except for one or two bottles-all are dated. I will tell her. I could give it to a clinic here and save you carrying it back.

I have not said hi to your new ambassador - better do that soon. Oh God how time flies. Spoeaking off books hows our friend the author Daisy. Have she translated her book. I should give her spanish book to the Cuban doctors her. Will it offend ?

I have asked you if I can help Miguel ? Will it offend ? Or should I wait till you come? Notice I say when and not if.

I want to listen to this wonderful music while you sleep. Hey are you ahead of us ? in Time? We should be. At 2.30pm Sunday you should be waking 6am on Sunday. Why I am confused by your time in your letters. Asshole me not you

Ok enjoy your breakfast/Mum/Sis/cat/snake/ dog too?

Love
phyllie
