

T H E S T A R I S S H I N I N G !

- By a Port Elizabeth worker -

We did rejoice and appreciate when we heard of the achievements obtained by the united workers in various areas. We are happy because any successful movement of the workers in any district or city is also our success.

Any branch of a business whether it is in Durban, Port Elizabeth, East London or Umtata will also emulate its other branch when it comes to increasing the wages of the workers.

Remember the words of the old sage "when someone goes down another one goes up" So therefore whosoever sacrifices for his rights is most honoured. Even if he loses his life for a just cause, his efforts will long live and his name will be held in reverence by future generations.

It is fitting that first effort should be made by the workers of Natal last year (that is Kwazulu) Meat is palatable if you flavour it with spices.

Though the employers pretended not to take notice of events, particularly the wealthy owners of the Frame Group Company, the militant workers managed to get something. Even if the increase was very little, it was an achievement nevertheless.

What I really want to say is that the workers of Port Elizabeth should be very grateful. Now the helper has come to build the unity of all workers.

Am I telling a lie .... IT HAS ARRIVED agree with me. (In other words a challenge is presented to any man who wants to get something for his family.)

H O W ? ?

By him joining other workers, however little the number, and build workers' unity, to demand and protect the rights of workers. They must meet quite often I emphasize quite often "They meet at a place where they will be taught how to fight for their rights without being victimised or threatened!"

"The Voice of the newspaper Abasebenzi has been heard by many workers, calling them with a loud voice to unite. Please agree with me!"

This newspaper you must look for it by all means. It is your life-blood. Because of its leadership and its efforts you will be born again- With high wages you will be able to feed your babies on milk rather than on sweetened water. Because you can't afford milk. Through lack of milk a baby can die of malnutrition.

We all agree with this.
