

index

We publish below an index to the major articles which have appeared in the first 15 issues of WORK IN PROGRESS. The articles are gathered together under very general subject categories for reference purposes. The index has been produced for two reasons: firstly, a number of readers have not received all copies of WIP, and this should assist these readers in getting a fuller picture of the WIP project. The second major reason for producing an index is to make the material published in WIP accessible to a wider group of people than it has thusfar reached.

The items are listed in the following order:

name of article (eg Community Medicine)
author (where applicable): (eg Ian Kitai)
issue number: (eg 1)
date of publication: (eg Sept 1977)
page reference: (eg 33-34).

This index will be updated from time to time.
