

PEOPLE OF AZANIA

We have been sicing, singing a tonge like Senzeni and we knew that our only sin is being Black.

People we've beeng' singing, singing a tong like Thina si ya lila and a song like Thina sizwe e Simnyama. And the white pigs know very well what the meaning of those songs are. People we've beeng asking a questian how long, and we know very well that it is a million years back.

People we've beeng having talks with these pig and they stayed on those angly long heads and nothing was said there eigter. People we demontrated and we were killed in hundreds other detained just for asking for what belongs to them;

People of Azania; Black people of Africa how can we live these things to coninue happen. Is a Black man not brillani enogh to make his own bazooka, are we going to stay back because we are from detantion or stay bakc because we have passed our form four Bantu education and want to pass our form five and at your rotten bantu education certificate instead of leaning how to make an African bazooka not a petrol bomb-people the time, has come time it ripe leave that stinking Bantu education of yours and find a way out of getting you way of getting back your country and leave out that scank Bantu education you will be fed with a betterone after you have got your land back.

People stand up do something it does help stop precheng, stop tincung, stop asking questions that wont help you any more. Only a bazooka will help..

Power to the People.
