

## MESSAGE TO THE BLACK AZANIANS

People of Azania:

Your sacrifices; your courage; your heroic determination are the symptoms of victory in our beloved country which is now ruled by the white racist minority. But surely their days of ruling Azania are definitely coming to the end.

The minority regime of Vester and his comrade Jimmy Kruger, is not going to stand for what is in store for them. The black Azanians are going to hid hard, to what ever belongs to the white regime.

To show that South Africa is a police state, last year during the first leg of our revolution Jimmy Kruger the so called Minister of Police and Justice caused the confused white minority to dance to his music. He made matters worse by closing and re-opening schools as if he was in charge of the so-called "Bantu Education".

Let the South African minority regime quit our country for they will experience more than what roker-faced racist Smith, the so-called Rhodisian Prime-Minister experiences. He is the one who knows what is meant by Bazookas, AK 47's, and stalins organs. Although the guys have not yet infiltrated Zimbabwe the way they want, the introduction of armed struggle causes constipation in racist Ian Smith's stomach.

The libatation of Azania is going to be internally, I don't know why the white minority is busy wasting time by sending its youths to the borders, for they are dying for nothing. I must say that, because they're few and each and every Azanian wants at least to have killed more than two of these racists. If they are going to be kille by (Zipa) forces, then surely Azania is going to be Automatically liberated.

It seems as if the United States of America is trying by all means to stop Majority rule in Azania, we the Azanians we are not going to be discouraged by the capitalists to Abandon the armed sturggle.

We all know the tactics of the capitalists, just because they have investments in S. Africa they think that they can stop majority rule.

Down with Capitalism  
Down with Imperialism  
Down with Racism

Forward with Revolution  
Forward with Socialism

With courage  
Yours brother in struggle  
Brother "Chimurenga"
