

## THE AFRICAN CRISIS

South Africa is faced with her greatest crisis since last year. Wherever we look today, whether South North, East or West, we see increasing race tension. We see the increase of racial animosity, racial hostility and outright racial hatred. We see masses of black people who have lost all confidence in the false promises of hypocritical white politicians. We see masses of black people who are thoroughly fed up with deceit of white, so called liberals now that the eyes of 18 million blacks have been opened, we can easily see that this white fox here in South Africa is more cruel and vicious?

These fox poses as your friend, they poses as your benefactor, poses as your employer, poses as your landlord, the poses as your lawyer trying to help you, they infiltrate all of your organization and in this manner by joining you, they strangle your militant efforts toward freedom, toward justice and toward equality. They use intergration for infiltration.

Masses of black people are demonstrating against the oppression and exploitation of man by man. They have ceased turning their none violent cheek to the violent white pig, and because of this new fearless, more militant attitude on the part of Africans, we see the increase of violence and bloodshed between the white exploiter and the exploited, between the white slave master and his 60 million African slaves and where will it end. How long shall we suffer.
