

## SUGGESTED AGENDA FOR SASO-NUBAS EXECUTIVE MEETING

Necessary to determine the exact relationship between SASO and NUBAS. Must define specific and identifiable goals for. If co-operation is to be fruitful, the premises on which it is based must be clearly defined. Our ultimate mutually beneficial goal must be based on the conception of each organisation of its own self-interest - we cannot assume that what is good for one is good for the other. Must recognise that each has its own independent power base.
