

SOwETO STUDENTS REPRESENTATIVE COUNCIL

It was said that our country is democratic which unfortunately is the most naked and an uncalculated lie. For there is one thing about democracy; individual rights are highly protected but this has been proved beyond reasonable doubts that in South Africa the rights only to be protected are ones of the minority regime. The proof of this effect is that the people of Soweto requested municipality status from the Government, but in turn we get the Community councils which is not going to involve our local leaders, but instead the Government guards who appears to be very reliable non whites. We rejected U.B.C. because of the uselessness, now poor John Vorster's regime is bringing back a highly fashioned U.B.C. that is the community councils.

1. According to the community council bill, it is stated that the white minister and the local authority which consist of a bunch of undescrivable human elements, shall have a chance of approving of the elected people by the residents. The proof to this effect is:
 - a. We elected the community of ten, in turn the Government disapproved their existence and instead they were all locked in at Modder Bee to pave the way for the White Government selected committee of 13.
 - b. The committee of 13 of the former U.B.C. members who encourage this rent increment.
2. THROUGH the community councils we will be accepting the deadly poison which is BANTU EDUCATION.
3. We hate to endorse the Police harassment or encourage drunkenness in the Black community.
4. We do not believe in the so called unlawful persons in our country i.e. who are being evicted from their houses. Therefore accepting community councils we will be making ourselves unlawful in our country.
5. The self-government rule promises were made nine years ago when the useless Boy's Club was introduced from experience we realise that the government was applying delaying tactics to enable it to pass most ungodly oppressive law through this very institution that is the U.B.C. now with a christian name being Community Councils.

So in short the community councils are introduced to serve the interest of the oppressive government and not for the Black Society's. We want to make it clear to the government and its reliable puppets that will not be intimidated into accepting the unqualified silly community councils. Secondly no one is going to vote nor stand for the elections. We still demand the release of all the detainees.
