

THE BANNING OF 18 BLACK CONSCIOUSNESS ORGANISATIONS.

It is a very pathetic situation for the WHOLE GOVERNMENT of South Africa to apply naked conspicuous, tactics by attempting to cripple the Black Assetiveness. By these banning, it has been proved beyond any reasonable doubt that the White Government has reached a point where its sources of tricks has been exhausted. They have untactfully banned the verbal black consciousness, and left the whole spiritual black consciousness with the people.

The Government has proved itself to be 100% unchristian. They have proved beyond any reasonable doubt that theirs is to legalize injustices on this earth, and illegitimise justices in this once Peaceful land of BLACKS. The proofs to this effect are:-

1. They brutally murdered black people in Sharpville, for conducting peaceful demonstration against DOM PASSES. This we will never forget until final victory.
2. They underpaid our parents, who in turn decided to sacrifice from their meagre remuneration to see to the education of their children. They proved to be assertive by building schools of their own, but still the unchristian government decided to ill-display their uncoothness.
3. On the 16th June 1976 Black Students demonstrated against the use of AFRIKAANS as a medium of instruction. Instead the illegitimate South African Regime which boasts of democracy, mercilessly massacred helpless, innocent, armless young black students. Imagine a 13 year old Hector Pieterse dropping dead at the hands of a legalised-gangster element i.e. White Policemen.
4. They indignantly murdered one of the most democratic, assertive, prospective and humble national black leader The Honourable STEVE BANTU EKO.
5. They again decided stupidly to ban the cream of black leaders and legalised their theft by taking the B.C.E. properties and monies to go and give to the defence force which in turn shoots black armless children. They closed down clinics, through which blacks proved their ability to be independ of whites, which indirectly pricked them.

It is very unfortunate for the Government that we know that these bannings and detentions without trial were paving way for the following:-

- a. To promote the Community Councils which are still U.B.C's at their best levels.
- b. To bulldoze us by increasing rents, smoothly since we appeared to be leaderless.
- c. To seduce opposition to the implementation of a partheid.
- d. To destroy any form of recognised leadership relevant to the black community.

It was a most naked stupidity for the government to decide to ban a student body which it never legalised nor approved of their existence. We want to make it clear to our brothers and sisters that we shall not sedpair, nor shall we retreat, instead we shall go on through your faithful support until final victory.

To you Kruger, we are giving you up to the 31/11/77 to uplift the bannings and the detentions of our leaders unconditionally. OR ELSE!!! Only unity through-unity shall we stand. MA AFRICA VICTORY IS CERTAIN.

POWER!!!
