JOHANNESBURG

Dear Brothers,

The 9th General Students' Council meeting will be held from the 3rd- 9th July at St. Peters Seminary, Hammanskraal, in the Transvaal. The theme for this years conference is "TOWARDS THE PRACTICAL MANIFESTATION OF BLACK CONCIIOUSNESS ".

The oppressed and exploited masses, although met with stiff suppressive measures and violence, when they challenged the inhumanity of thier oppression , have each time gathered the broken pieces together with new lessons learnt, new insights gained, to prepare a new assault on the partification of the oppressor. The bitter lessons of the past need to be studied and not learnt in painful new experiences. The pressure for change in this country can never diminish, because apartheid and exploitation of man by man can never satisfy the aspirations of the people.

The importance of the existence of a student body like S.A.S.O. can not be over-emphasised. Representatives of your organisation are invited to participate in the activities of the General Students' Council meeting. A registration fee of R15.50 is necessary to help offset costs.

Yours in the quest for true humanity and justice.

Power and solidarity.

Terrence Tryon,  
SECRETARY GENERAL.
