

If really Mr. KRUGER thinks that by detaining black ^{leaders} teachers like Steve BIKO is the only solution of solving the problems of this country or destroying what is in them about their rights in this country. Really he is creating a huge joke like that of Mr. MULDER about the Committee of 13 and even creating more problems for this country. Mr. Steve BIKO is the 20th, to die in the hand of the justful man who practises (justice) in this country Mr. KRUGER. I cannot understand why can't Mr. KRUGER ABolish such acts like Section 6 and Internal Sec. Act that has resulted the death of all our black people.

Whatever the case maybe that lead Steve to his death. We emphasise and furiously say that we blame the government for the death of this man and others. We don't care what the post mortem is going to reveal but the government will remain being the people responsible of this death.

Mr. KRUGER must not deceive himself and think that we don't know how people are being interogated by the Security police. I am talking like this boldly as one of those who were once under the very same act that resulted Steve's death, who was fortunate enough to come out being still body soul.

We also thank you very much for the good work Mr. VORSTER deed by calling general election, but we kindly ask him to give Mr. KRUGER a chance of taking his own time even more months to reveal the postmortem, so that when he loose the vote (if he will) he may not keep a low profile about it.

The death of this man is similar to that of Jesus who died for the whole world maybe for the very same men who is responsible for his death, thus we call upon our black people to observe this weekend as the weekend of silent meditation and mourning.

Referring to the meeting of Atasa lead by my Dlamlenze up would to call upon him not to cause unecessary work or headache for himself about "Bantu Education". The Government knows axactly what is wrong about B/E that is why they keep on sending dogs to bite students. So Mr. DLAMLENZE relax and mourn with us don't try to pull your own side.
