National Press Statement

UDF strongly condemns the latest incursion by the SADF into Botswana.

This, coming shortly after the thrashing the SADF got at the hands of the Angolan forces in Cabinda. Clearly illustrate the aggressive and insensitive policies of South African regime towards its neighbourly states. We send our deepest sympathies to the people of Botswana and to their government and to those whose loved ones have either perished or sustained ~~to~~ injuries at the hands of the aggressors. We ask the people of Botswana not to be discouraged in their support for all those who are disadvantaged and had sought refuge in their

Country.

We are well aware of the attempts the South Africans have been making in trying to pressurise Botswana into signing "Inkomati" "Apartheid" type of agreement. But Botswana has been firm on its refusal to sign this agreement. It therefore comes as not as a surprise to us when South Africans finally resort to ~~just~~ ^{gross} ~~unpoor~~ ^{unpoor} diplomacy, like Cabinda the SWAPO & ANC ~~is~~ bogey is just the smokescreen for ~~SAAF~~ South African policies of aggression to Southern Africa.

SADF strongly condemns the latest incursion by the SADF into Botswana. This, coming shortly after the fireship the SADF got at the heads of the Angolan forces in Cabinda. Clearly illustrate the aggressive and insensitive policies of the South African regime towards neighbouring states. We send our deepest sympathies to the people of Botswana and to their government and to those whose loved ones have either perished or sustained injuries at the hands of the aggressors. We ask the people of Botswana not to be discouraged in their support for all those who are ~~are~~ disadvantaged and had not ~~for~~ refugees in their country. Botswana is something that South Africa is not, a free country.

We are well aware of

the attempts the South African
 have been making in trying
 Botswana into signing to pressure
 "an Donati" kind of
 of agreement. But Botswana
 has been firm on its
 refusal to sign this
 agreement. It therefore comes
 as not surprise to us
 when the South Africans

 diplomacy like Cabinda
 the ANTC is just a
